

SKELETON OF SOLDIER UNEARDED BY WORKMEN

Bones of Northern Man Disturbed in
Resting Place on Old
Battlefield.

REMAINS OF CLOTHING FOUND

Several Times Recently Ghastly
Remains of Civil War Have Been Un-
covered at City Point During Ex-
cavations for Du Pont Plant.

PETERSBURG, VA., March 6.—In digging gravel on the farm of W. F. Lawrence, in Prince George County, Va., to be used for the improvement of the highway, a skeleton was unearthed. The skeleton was that of a Union soldier, judging from the army buttons and buckle found with it. There was also found a watch chain, metal chain made of galvanized gold dollars. The bones were given decent burial.

On several occasions recently during the progress of the railway improvements at the Du Pont works at City Point skeletons have been un-
earthed. In one instance the well-
preserved remains were in a lead-lined coffin, and an army market was
found by the bones. There was
nothing about them to indicate whose
remains they were.

MANY VISITORS PRAISE VIRGINIA'S EXHIBIT

Much Interest Shown at San Francisco in Exhibits of State's Progress.

The Virginia exhibit at the Panama-Pacific International Exposition, San Francisco, California, is attracting much attention, and interest in this State's display is growing steadily, according to reports received yesterday from Professor J. W. Everett by Captain W. W. Baker and Secretary Alexander Forward, of the Virginia Commission.

Professor Everett, who assembled the State's educational exhibit, and is now in charge of that division of the Virginia exhibit on the exposition grounds, writes:

"We have had the Virginia building open some days, and it has won great many compliments from visitors from all parts of the United States. The Bellwood 'single farm' exhibit is beautiful. It deserves the best prizes going."

Secretary Forward yesterday afternoon addressed a communication to Professor Everett advising him that suggestions made by him with reference to moving the pictorial transparencies advertising Virginia's resources from the place where they were originally set up to the office rooms in the wing of the Mount Vernon building were favorably received by the commission, and authorizing him to make the change at once. The transparencies show interesting and instructive scenes on farms in different parts of Virginia.

Professor Everett, in his letter to Captain Baker, tells of some recent additions to the pictorial display housed in the Virginia building. Among these are:

LOAN SHARK CASE CONTINUED

Judge Richardson Takes McMurtre Charge Under Adversity.

Judge Richardson, of the Hustings Court, yesterday heard argument in the appeal of A. B. McMurtre, manager of the American Loan Company, who was fined \$50 by Acting Police Justice Griggs on a charge of operating a disorderly house by charging usurious rates of interest.

The argument centered upon the disputed point as to whether McMurtre's place of business, or any place where usurious rates are charged, could be considered as disorderly. There are only four such cases on record in the United States. In two of them the courts held that places of business where usurious rates were charged were actually disorderly, and in the other two the courts took the opposite view.

In his plea that Judge Richardson uphold the decision of the police magistrate, Commonwealth's Attorney Folkes asked him to decide in accordance with the progressive spirit of the age, so that the poor might not suffer and the lowly receive justice. Judge Richardson took the case under advisement.

Positive Relief For Constipation

The progress of modern medical science is, perhaps, no more forcefully evident than in the simplifying of many of the old-time remedies of past generations. For instance, the harsh cathartics and violent purgatives used by our forefathers to relieve constipation are now known to be not only unnecessary but really harmful. Constipation can be more effectively relieved without the discomfort and pain these old-time remedies occasion.

A combination of simple laxative herbs with pepsin, sold in drug stores under the name of Dr. Caldwell's Syrup Pepsin is most effective, yet mild and pleasant. It is absolutely free from opiates and narcotics and equally as desirable a remedy for the tiniest babe as for rugged manhood. A free trial bottle can be obtained by writing to Dr. W. B. BRUNSWICK COUNTY BUSINESS WOMAN HAS GOOD FORTUNE

Mrs. L. A. Walker, of Broadnax, Va., Tells How She Succeeded in Acquiring Much Happiness.

Mrs. L. A. Walker, of Broadnax, Brunswick County, is not a "new woman" by any means. She does not need the halloo to prove her equality. Her shrewd native ability to take care of herself in competition with men has been amply demonstrated by the success she has attained in the conduct of her general merchandise business in her home town.

Yet with all of her progressive ideas, Mrs. Walker lately has not been accomplishing as much as her ambition desired. There was a reason, and in an interview Mrs. Walker explained her difficulty.

"I have been subject to headaches for fifteen years at least. Several months ago they increased in severity, and the pain even spread to the back of my neck. I suffered intensely, and worst of all, I found that I could not properly attend to my business."

"Recently it struck me that my eyes might be faulty. They had not been giving entire satisfaction, and were falling me. I had been wearing glasses for seventeen years, but they were not doing any good. About this time I read of the great results obtained by Charles Lincoln Smith, and at once made up my mind to give him a trial."

"I cannot say too much for Charles Lincoln Smith. His method and prescription glasses are beyond my praise, because I never felt better in my life. The dreadful headaches are gone, and I feel like a new woman—not one of those hunting votes—but one who has been man over. Charles Lincoln Smith is responsible for it all."

"I am happy now. Headaches are unknown to me. In three weeks this genius brought me more happiness than I have ever known. I can see for myself the results he has given me. I don't seem real. And I will take every opportunity to let my friends know of the remarkable results he has had with my case."

So well pleased was Mrs. Walker with Charles Lincoln Smith's method that her daughter, Mrs. W. H. Mountcastle, of Fredericksburg, also came to him.

Mrs. Mountcastle, a mere slip of a girl, attractive and vivacious, said: "For thirteen years I suffered agonies from my eyes. I tried some of the best known eye doctors, but they could obtain, but instead of my eyes getting better, they got worse. I was forced to do without my eyes, and I had weak sight to begin with, and as I grew older it grew worse. I suffered excruciating pains in my head at times, and then again I was bothered by dull, sickening headaches. Sometimes my eyes would almost close and water constantly. All these things tended to make me worry, especially after some of the leading authorities in the country had failed to do me any good."

"I came to see Charles Lincoln Smith some time ago. I haven't had a sign of a headache since. Since he put glasses on me I haven't been bothered in the least with my eyes. I feel almost too good to be true, and my husband says so, too. Charles Lincoln Smith's method and prescription glasses have been my salvation. I feel I owe to him a debt of gratitude I can never pay."

"Now, mind you, that was thirteen years ago. I wore those glasses seven years, and then, because I was getting older, I reckon, my eyesight commenced to bother me again. Then I employed someone else to tell me what was wrong with my eyes. If I do eyes; but I had the same experiences that I had previously. Then I went to another one, and he didn't seem to be able to understand my case either. "After this I was almost at my wits' end. I
